## 2

## THE TWO LIFTS

---

### 2.1

#### GENERAL

In the sport of weightlifting the IWF recognises two (2) lifts which must be executed in the following sequence:

- a) The Snatch
- b) The Clean & Jerk

Both lifts must be executed with two hands. A maximum of three (3) attempts is allowed in each lift.

### 2.2

#### THE SNATCH

#### 2.2.1

The barbell is centred horizontally on the competition platform. The athlete takes the start position behind the barbell. The athlete grips the barbell and bends at the knees. The barbell is gripped, palms downward and pulled in a single movement from the platform to the full extent of both arms above the head, while either splitting or bending the legs. During this continuous movement upward the barbell should remain close to the body and may slide along the thighs. No part of the body other than the feet may touch the platform during the execution of the Snatch. The athlete may recover in his/her own time, either from a split or a squat position. The lifted weight must be maintained in the final motionless position, with both arms and legs fully extended and feet on the same line and parallel to the plane of the trunk and the barbell. The athlete waits for the Referees' signal to replace the barbell on the competition platform. The Referees give the signal to lower the barbell as soon as the athlete becomes motionless in all parts of the body.

### 2.3

#### THE CLEAN & JERK

#### 2.3.1

The first part, the Clean:

The barbell is centred horizontally on the centre of the competition platform. The athlete takes the start position behind the barbell. The athlete grips the barbell and bends at the knees. The barbell is gripped, palms

downward and pulled in a single movement from the platform to the shoulders, while either splitting or bending the legs. During this continuous movement upward the barbell should remain close to the body and the barbell may slide along the thighs. The barbell must not touch the chest before it stops at the final position either on the clavicles, chest or on fully bent arms. The athlete's feet must return to the same line and the legs must be fully extended before starting the Jerk. No part of the body other than the feet may touch the platform during the execution of the Clean. The athlete may recover in his/her own time and must finish with the feet on the same line and parallel to the plane of the trunk and the barbell.

### 2.3.2

The second part, the Jerk:

The athlete must become motionless after the Clean and before starting the Jerk. The athlete bends and dynamically extends the legs and arms simultaneously to move the barbell upward in one motion to the full extent of the arms, while either splitting or bending the legs. The athlete returns his/her feet to the same line parallel to the plane of the trunk and the barbell with his/her arms and legs fully extended. The athlete waits for the Referees' signal to replace the barbell on the competition platform.

The Referees give the signal to lower the barbell as soon as the athlete becomes motionless in all parts of the body.

Before the Jerk, the athlete may adjust the position of the barbell for the following reasons:

- a) to withdraw or "unhook" the thumbs
- b) if breathing is impeded
- c) if the barbell causes pain
- d) to change the width of the grip

The barbell adjustments noted above are not considered to be an additional attempt at the Jerk.

## **2.4 GENERAL RULES FOR ALL LIFTS**

- 2.4.1 The technique known as “hooking” is permitted. It consists of covering the last joint of the thumb with the other fingers of the same hand at the moment of gripping the barbell.
- 2.4.2 In both lifts, the Referees must count as “No lift” any unfinished attempt in which the barbell has reached the height of the knees.
- 2.4.3 After the Referees’ signal to lower the barbell, the athlete must lower it in front of the body. The grip on the barbell must only be released when it has passed the level of the shoulders.
- 2.4.4 An athlete, who, for any reason, cannot fully extend the elbow(s), must report/display this fact to all on-duty Referees as well as the Jury prior to the start of competition and may remind of this fact prior to the start of each lift when on the platform. This is the sole responsibility of the athlete.
- 2.4.5 When snatching or cleaning in the squat style, the athlete may assist their recovery by swinging or rocking their body while in the squat position.
- 2.4.6 The use of chalk (magnesium carbonate) is permitted.
- 2.4.7 The use of grease, oil, water, talcum or any other lubricant on the athlete’s thighs is forbidden. An athlete who uses forbidden lubricant(s) is ordered to remove it immediately. If during the removal, the clock is running for that athlete, the clock remains running.
- 2.4.8 It is the sole responsibility of the athlete to complete each lift in accordance with the IWF TCRR and to the satisfaction of the on-duty Technical Officials.

## **2.5 INCORRECT MOVEMENTS**

### **2.5.1 INCORRECT MOVEMENTS FOR ALL LIFTS**

- 2.5.1.1 Pulling from the hang, defined as: stopping the upward movement of the barbell during the pull.

- 2.5.1.2 Touching the platform with any part of the body other than the feet.
- 2.5.1.3 Pause during the extension of the arms.
- 2.5.1.4 Finishing with a press-out, defined as: continuing the extension of the arms after the athlete has reached the lowest point of his/her position in the squat or split for both the Snatch and the Jerk.
- 2.5.1.5 Bending and extending the elbows during the recovery.
- 2.5.1.6 Leaving the competition platform or touching the area outside the competition platform with any part of the body before the complete execution of the lift.
- 2.5.1.7 Dropping the barbell from above the shoulders.
- 2.5.1.8 Failing to replace the complete barbell on the competition platform.
- 2.5.1.9 Not facing the Centre Referee at the beginning of the lift.
- 2.5.1.10 Releasing the barbell before the Referees' signal.

## 2.5.2 **INCORRECT MOVEMENTS FOR THE SNATCH**

- 2.5.2.1 Pause during the lifting of the barbell.
- 2.5.2.2 Touching the head with the bar; hair and any items worn on the head are considered to be part of the head.

## 2.5.3 **INCORRECT MOVEMENTS FOR THE CLEAN**

- 2.5.3.1 Resting or placing the barbell on the chest at an intermediate point before its final position producing a “double clean”; often referred to as a “dirty clean”.
- 2.5.3.2 Touching the thighs or the knees with the elbows or the upper arms.

## 2.5.4 **INCORRECT MOVEMENTS FOR THE JERK**

2.5.4.1 Any apparent effort to jerk which is not completed; including, lowering the body or bending the knees.

2.5.4.2 Any deliberate oscillation of the barbell to gain advantage. The athlete must become motionless before starting the Jerk.

## 2.6 **INCOMPLETE MOVEMENTS AND POSITIONS**

2.6.1 Uneven or incomplete extension of the arms at the completion of the lift.

2.6.2 Failing to finish with the feet and the barbell in line and parallel to the plane of the trunk.

2.6.3 Failing to fully extend the knees at the completion of the lift.

3.3.6 **TECHNOLOGY AND INFORMATION SYSTEM (TIS)** *(REGULATION)*

The TIS is a complex and integrated competition management application including the competition management software and the following hardware:

3.3.6.1 **REFEREE LIGHT SYSTEM**

3.3.6.2 The Referee Light System is the means by which Referees adjudicate the lifts.

- 3.3.6.3 The Referee Light System consists of one (1) control box for each of the three (3) Referees and a control panel for the Jury.
- 3.3.6.4 Each of the Referees must give the “Down” signal by pressing the white button for a “Good lift” or the red button for “No lift”, according to the relevant rules.
- 3.3.6.5 When two (2) of the Referees have provided identical decisions, a visual and audible “Down” signal is given to the athlete to replace the barbell on the competition platform.
- 3.3.6.6 If one (1) Referee presses the white button and another Referee presses the red button and the third Referee does not press either, the latter hears an intermittent audible signal from the control box prompting him/her that a decision is required.
- 3.3.6.7 The signal is only a reminder to the Referee; the Referees must be certain in their decision of “Good lift” or “No lift”. The signal should not force the Referee to make a decision. When two (2) white lights or two (2) red lights have been given by two (2) of the three (3) Referees and the “Down” signal has been seen and heard, the Referee who has not provided a decision is reminded to give his/her decision by way of the intermittent audible signal.
- 3.3.6.8 Three (3) seconds after the three (3) Referees have given their decision; the “decision lights” light up, indicating the individual decision of the Referees by corresponding colours, either red or white. The decision lights remain lit for a minimum of three (3) seconds.
- 3.3.6.9 After the visible and audible “Down” signal and before the decision lights operate, the Referees have a three (3) second window to reverse their decision. If a Referee misses the three (3) second window he/she must raise the small flag provided to them to indicate a change in decision.

3.3.6.10 When the “Down” signal has been given and the „decision lights” are on and the athlete does not lower the barbell, the Centre Referee must say “Down” and signal the athlete to replace the barbell to the competition platform.

3.3.6.11 During the competition, the Jury monitors the work of the Referees through a control panel. Every decision by the Referees may be verified as the lights on the control panel light up instantly when the Referees make a decision. Slow, fast or no decision(s) may be identified for immediate or further action. Should the Jury want to call any of the Referees to the Jury table, the Jury President does so by pressing the button on the control panel, which gives an audible signal to the Referee(s) in question.

#### 3.3.6.12 **JURY CONTROL UNIT**

Jury members give their decision on each lift using the equipment located on the Jury table. Each Jury member has a device with a red and white push button.

#### 3.3.6.13 **COMMUNICATION SYSTEM**

An intercom or telephone system must be provided for direct communication between the Jury, Competition Management and Chief Marshal.

#### 3.3.6.14 **TIMING CLOCK**

An electronic timing clock with countdown mode in increments of one (1) second must be used. The timing clock must be able to be set to any time up to fifteen (15) minutes.

#### 3.3.6.15 **ATTEMPT BOARD**

The following information must be displayed on the Attempt Board:

- name (family name displayed upper case text; followed by given name in upper case for the first letter and lower case for subsequent text)
- IWF/IOC code
- weight to be taken
- attempt number

- athlete start number
- Referees' decision, if not displayed elsewhere
- timing clock, if not displayed elsewhere

3.3.6.16

### **SCOREBOARD**

A scoreboard must be set up in a prominent place in the FOP in order to record and display the progress and results of the specific category as it happens.

3.3.6.17

The scoreboard must contain the following information for all athletes in the group being contested and for the top three (3) athletes from the previous groups, which must be displayed the entire time: which must be displayed the entire time:

- athlete start number, in numerical order
- name of each athlete according to the allocated start number
- date of birth
- bodyweight
- IWF/IOC code
- three (3) attempts in the Snatch
- three(3) attempts in the Clean & Jerk
- Total
- final classification
- indication of the athlete called and the one to follow next

3.3.6.18

Successful and unsuccessful attempts must be marked differently (by strikethrough or by colour).

3.3.6.19

### **RECORD DISPLAY**

The records of the category contested must be displayed on the FOP. The information on the records must be available throughout the entire group and must be updated immediately when a new record is set.

3.3.6.20

### **VIDEO BOARD(S)**

Video screen(s) must be provided on the FOP, both in the competition area and warm-up area.

## **3.4 OFFICIAL DOCUMENTS**

### **3.4.1 EVENT REGULATION**

#### **6.5 INTRODUCTION** *(REGULATION)*

6.5.1 The competition officially starts with the introduction of athletes. After the introduction of athletes and prior to the introduction of the Technical Officials, the timing clock starts a countdown of ten (10) minutes.

6.5.2 Athletes of the group are introduced in order of athlete start number.

6.5.3 The Technical Officials of the group are introduced after which the Technical Officials submit their TO Cards to the Jury President.

**6.6 COURSE OF THE COMPETITION** *(REGULATION)*

6.6.1 The barbell is loaded in progression. The athlete requesting the lightest weight lifts first. Once the announced weight is loaded on the barbell, and the clock has started, the weight cannot be reduced. The athlete or Team Official must therefore observe the progression of the loading and be ready to make the attempt at the weight they have chosen. This is the sole responsibility of the athlete / Team Official.

6.6.2 The weight of the barbell must always be a multiple of one (1) kg.

6.6.3 The automatic progression after any successful attempt for the same athlete must be a minimum of one (1) kilogram. If the lift is unsuccessful the weight on the barbell automatically remains the same.

6.6.4 The minimum weights that can be lifted at IWF Events are:

- Men = twenty-six (26) kg (20kg bar, collars and two 0.5kg discs)
- Women = twenty-one (21) kg (15kg bar, collars and two 0.5kg discs)

6.6.5 The total weight of the starting attempts declared and actually taken in the Snatch and the Clean & Jerk cannot be less than fifteen (15) kg below the verified Entry Total for women and twenty (20) kg below the verified Entry Total for men. The Jury will exclude the athlete from the competition if this rule is not adhered to. The above rule is commonly referred to as the “15/20 Kilo Rule”.

6.6.6 **CALLING ORDER**

The following four (4) factors listed in priority must be considered when calling the athletes:

1. The weight of the barbell (lightest weight first)
2. The number of the attempt (lowest number first)

3. The sequence/order of the previous attempt(s) (the athlete who lifted earliest is first)
4. The start number of the athlete (lowest first) – For the allocation of start numbers see Regulation to 6.4 – Weigh-in

6.6.7 One (1) minute (60 seconds) is allocated to each athlete between the calling of his/her name and the beginning of the attempt. After thirty (30) seconds, a warning signal sounds.

When an athlete attempts two (2) lifts in succession, he/she is allowed two (2) minutes (120 seconds) for the succeeding attempt. (For exception see 6.6.8)

Thirty (30) seconds after the start of the allocated time and thirty (30) seconds before the end of the allocated time, a warning signal sounds. If at the end of the allocated time the athlete has not raised the barbell from the competition platform to make the attempt, this attempt is declared “No lift” by the three (3) Referees.

The timing clock is started the moment the Speaker finishes the announcement of the attempt in English or when the barbell is loaded and the loaders have left the platform, whichever is last.

6.6.8 An athlete is granted only one (1) minute if while taking two lifts in succession the calling order changes and the clock starts for another athlete.

6.6.9 The weight announced by the Speaker must be immediately displayed on the Attempt Board.

6.6.10 When an athlete wishes to increase or decrease the weight originally selected, the Team Official / athlete must notify the Chief Marshal by signing the Athlete’s Card. In order to increase the weight the Team Official / athlete must sign the Athlete’s Card before the final call (except TCRR 6.6.12). In order to decrease the weight, the clock must not have started for the athlete.

6.6.11 The final call is the signal given by the timing clock thirty (30) seconds before the end of the allocated time.

6.6.12 Before the first attempt and between two attempts the Team Official / athlete must notify and sign the next attempt on the Athlete's Card; both for declaration and automatic increment. This signature enables two (2) changes.

If the Team Official / athlete fail to do so before the final call (30 seconds), the athlete will be called according to the automatic progression.

When an athlete is taking consecutive attempts (2 minutes allocated time), the Team Official / athlete must declare the next attempt within the first thirty (30) seconds after being called, even if it is the automatic increment.

Failure to do so will forfeit the two (2) changes allowed. The athlete will then have to take the automatic increment. (See TCRR 7.9)-

6.6.13 When the Team Official / athlete asks for a change of weight and still has to take the heavier weight next, the clock is stopped while the weight is changed. After the change of weight has been completed, the clock continues to run. When the Team Official / athlete asks for a change of weight and, in doing so, follows another athlete, the normal one (1) minute (60 seconds) applies for the next attempt. (See TCRR 7.9)

6.6.14 The Team Official / athlete must sign the Athlete's Card if they wish to withdraw from lifting either during the Snatch or the Clean & Jerk portions of the competition, or both. It must be noted and signed on the Athlete's Card that they are withdrawing from the respective lift.

Once the Athlete's Card has been signed the withdrawal is official and the athlete cannot re-enter the competition in that respective lift. The Speaker then announces the withdrawal.

- 6.6.15 During competition only on-duty Technical Officials, authorised personnel, authorised Team Officials (See TCRR 6.4) and athletes of the specific group are allowed in the FOP.
- 6.6.16 Only three (3) Team Officials are permitted to stand at the designated area / entrance of the competition platform / stage.-

## **6.7 BREAK**

- 6.7.1 There is a ten (10) minute break after the Snatch portion to allow the athletes to warm up for the Clean & Jerk.
- 6.7.2 The Jury, at its discretion and in consultation with the CD/TD may shorten or lengthen the break. An appropriate announcement to all relevant parties (athletes, Team Officials, Technical Officials, sport production, broadcast, spectators, etc.) must be made.

## **6.8 CLASSIFICATION OF ATHLETES AND TEAMS**

## **7.5**

## **JURY**

*(REGULATION)*

- 7.5.1 The Jury has the ultimate control on the FOP and its primary function is to ensure that the TCRR are being correctly followed and applied.
- 7.5.2 All Jury members must be Category 1 Technical Officials.
- 7.5.3 At IWF Events, the Jury is composed of three (3) or five (5) members each, one of which is the President. Up to two (2) reserve Jury members may also be appointed.
- 7.5.4 Throughout the course of the competition / Event, after observing the work of the TOs, the Jury members may highlight any special occurrences by way of written report. The President of the Jury may deliver the reports to the Technical Committee Chairperson, IWF President and/or IWF General Secretary.
- 7.5.5 Throughout the course of the competition and after a first warning, the Jury, by unanimous vote, may replace any Technical Official whose decisions prove him/her to be incompetent.
- 7.5.6 The impartiality of all Technical Officials is not to be doubted. Errors in officiating may occur involuntarily and in such situations, the TO is allowed to explain his/her decision to the Jury, if desired or requested.
- 7.5.7 The Jury has the power to reverse a decision when the Referees' decision has been judged unanimously by the Jury to be technically incorrect. In order to consider the reversal of a decision, the Jury must call the Referees in question to seek an explanation. If the explanation is accepted, no action is taken, if the explanation is not accepted the Jury will reverse the decision. Such decision and its reason must be communicated to the athlete / Team Official concerned via the Technical Controller or any other TO, as directed by the President of the Jury, and announced by the Speaker.

When the decision of the majority of the Jury members differs from that of the Referees' decisions, the Jury may call the Referees in question to

seek an explanation. If the explanation is accepted, no action is taken, if the explanation is not accepted and the Jury reaches unanimity, the Referees' decision will be reversed.

In Events where the composition of a three (3) member Jury is appointed, unless unanimity is reached in the first instance, the Jury cannot take any action.

7.5.8 In order to apply the above rule, the Jury members have to give their decision on each lift using the Jury Control Unit located on the Jury table. Jury members adjudicate the lift once the athlete has replaced the barbell on the competition platform. (See TCRR 3.3.6)

Jury members must not influence or attempt to influence the decision of the other Jury members.

7.5.9 The Jury is not a Jury of appeal; there is no appeal against the Jury's decision.

The Jury has the power to reprimand and/or sanction an athlete / Team Official for displaying misconduct within the FOP. In particular, if the misconduct, either by actions or words, represents a threat to any Technical Official or IWF personnel during the performance of their duties. The President of the Jury, in conjunction with the IWF President, IWF General Secretary or IWF Competition Director will be responsible for executing any reprimand and/or sanction.

7.5.10 Throughout the course of the competition, the Jury must monitor and enforce TCRR 6.6.5.

- 7.5.13 The Jury President is required to assess the need to recall “B” Group or any other Groups’ athletes to attend “A” Group competition should the “B” Group athletes be deemed to be medal prospects.
- 7.5.14 If a lift is failed because the barbell is not equally loaded, or the platform is damaged or the barbell becomes disarranged during the lift; or there is an incursion or any other external interference, the Jury must grant an additional attempt for the affected athlete.
- 7.5.15 If there has been an error in loading the barbell or if the Speaker makes a serious error during the announcement of an athlete’s name or the calling of the weight the Jury must grant another attempt. (See Regulation to 7.5)
- 7.5.16 The President of the Jury controls and signs all Technical Officials’ Cards.

Once the Referee is certain that the athlete has completed the lift; he/she indicates the decision by giving the appropriate signal.

7.7.6 As soon as the Referee has adjudicated a lift “Good lift”, he/she immediately presses the white button on the control box.

7.7.7 As soon as the Referee has adjudicated a lift “No lift”, he/she immediately presses the red button on the control box. Any Referee, who sees a mistake or fault during the execution of a lift, must immediately press the red button.

7.7.8 A lift is a “Good lift” with two (2) or three (3) white lights; a lift is “No lift” with two (2) or three (3) red lights.

7.7.9 There is no appeal against the Referees’ decision.

7.7.10 When no Referee Light System is available, the Centre Referee gives the “Down” signal and the Referees give their decision by means of small red and white flags. The “Down” signal must be both audible and visible, i.e. the Centre Referee must say “Down” and at the same time motion downwards with the arm. Before giving the “Down” signal, the Centre Referee must seek confirmation from the two (2) Side Referees. Similarly, should one (1) of the Side Referees see a serious fault during the execution of a lift, he/she raises an arm to call attention to the fault. If there is agreement

from the other Side Referee or from the Centre Referee, this constitutes a majority opinion and the Centre Referee stops the lift and signals to the athlete to lower the barbell to the competition platform.

- 7.7.11 The Reserve Referee must sit at a designated space on the FOP, ready to be called upon by the Jury President.
- 7.7.12 During the Victory Ceremony the Referees must remain in their respective place.

- 10** Athletes may be weighed in either completely undressed or in undergarments (articles of the athlete outfit: costume, unitard, shorts and T-shirt are not considered as undergarments). Athletes must not wear shoes or socks or any other footwear during weigh-in.

The Competition Secretary and other members of the Weigh-in Secretariat are suitably screened from the actual weigh-in process.

- 11** Athletes with prosthetic limb(s) must be weighed with the prosthetic limb(s). The weight of the athlete, while wearing the prosthesis, is considered to be the athlete's bodyweight.

- 12** Athletes are entitled to wear jewellery, hair adornments and religious head gear during weigh-in. Athletes must not wear watches during weigh-in.
- 13** The weigh-in room must be presented in and provided with proper hygienic conditions. Disinfectant / antiseptic cleanser and cloths should be made available to wipe the scale, if desired/required.
- 14** An athlete who is within the weight of the bodyweight category in which he/she is officially entered is weighed only once. An athlete who is under or over their officially entered bodyweight category may return to the weigh-in room as many times as necessary in order to make the bodyweight category. The returning athlete does not have to follow the sequence of weigh-in order.
- 15** An athlete who fails to make the bodyweight within the allotted weigh-in time of their respective bodyweight category, in which he/she is officially entered, is excluded from the competition of the Event. The athlete is still entitled to receive privileges of an accredited participant; such as training, transportation, social events, etc.
- 16** During weigh-in, the Team Official or athlete must sign the Athlete's Card to confirm the athletes' registered bodyweight; and to declare the starting attempts in both the Snatch and Clean & Jerk, with reference to TCRR 6.6.5.
- Any subsequent changes to the declared starting attempts are considered part of the two (2) allocated weight changes.
- 17** The Protocol is made available to all concerned parties, as soon as possible upon the completion of the weigh-in.
- 18** Once the athlete has weighed within the officially entered bodyweight category, accompanying Team Officials are provided with Warm-up Passes. Only Team Officials with Warm-up Passes are allowed access to the warm-up area.

The following allocations refer to each group:

- one (1) athlete – three (3) passes
- two (2) athletes – four (4) passes
- any additional athlete (for combined categories/Events) – two (2) passes per athlete

**19** If required, the CS monitors the secure collection of athlete accreditations and the distribution of athlete passes for anti-doping control requirements.

**20** Upon the completion of weigh-in, the athlete is assigned an athlete start number. The athlete with the lowest lot number is assigned the start number of 1; from there, all athletes in sequence of lot number are assigned start numbers in numerical order. When more bodyweight categories are contested in one competition, in the allocation of start numbers the progression of lot numbers is considered category by category, with the lower category to be taken before the higher categories.

Example:

<b>Start Number</b>	<b>Lot Number</b>	<b>Bodyweight</b>	<b>Name</b>
1	3	55.50	AAAAA Aaaaa
2	27	55.00	BBBBB Bbbbb
3	54	56.00	CCCCC Ccccc
4	8	61.55	DDDDD Ddddd
5	19	62.00	EEEE Eeeee
6	142	61.04	FFFF Fffff

Athlete start number bibs are assigned according to the athlete start number and are distributed in the warm-up area thirty (30) minutes prior to the start of the competition.

Athlete start number bibs are affixed with pins to the athletes' costume. The placement of the bib on side of the leg or hip is determined by the venue layout and the position of the Competition Management table. Correspondingly numbered stickers may also be distributed to the Team Officials for ease of identification for the Chief Marshal.

Athlete start numbers also correspond to the assigned warm-up platforms. In the case of more athletes than warm-up platforms, Team Officials and Technical Officials are expected to work in cooperation to find a suitable arrangement. If cooperation does not occur, the Competition Director, in consultation with the President of the Jury will determine the assignment of warm-up platforms.

## **REGULATION TO 6.5 – INTRODUCTION**

## **REGULATION TO 6.6.5 – 15/20 KILO RULE**

---

- 1 Rule (6.6.5) applies at all IWF Events unless otherwise stated.
- 2 Examples:
  - 2.1 Example: A female athlete enters a competition with a verified Entry Total of 200kg. The total weight of the first attempts in the Snatch and Clean & Jerk must not be less than 185kg (such as, 85kg and 100kg; 77kg and 108kg or any other combination).
  - 2.2 Example: A male athlete enters a competition with a verified Entry Total of 255kg. The total weight of the first attempts in the Snatch and Clean & Jerk must not be less than 235kg (such as, 95kg and 140kg; 104kg and 131kg or any other combination).

**3** Procedure for Application of 15/20 Kilo Rule:

The Competition Secretary and Referees (Weigh-in Secretariat) are the first point of contact for the correct application of the 15/20 Kilo Rule during weigh-in.

The following TOs are responsible for the supervision of Entry Totals and starting attempts following the publication of the Protocol:

- Chief Marshal and other Marshals
- Technical Controller in the warm-up area
- Competition Management operators
- Competition Director
- Jury

In all cases, any athlete / Team Official who refuses to comply with the directive of the Jury or designated TO is eliminated from the competition.

Note: The responsibility to comply with the Entry Totals and all relevant TCRR rests entirely with the athletes / Team Officials.

- 4** If the starting weights do not respect the 15/20Kg Rule, any of the above mentioned TOs must immediately advise the athlete / Team Official concerned to make the required changes.
- 5** If an athlete's first attempt in the Snatch is lighter than required by the 15/20 Kilo Rule, the athlete / Team Official must be advised by the Chief Marshal or Technical Controller in the warm-up area that the first attempt in the Clean & Jerk must be increased in order to comply with the Rule.
- 6** If the athlete / Team Official does not make the necessary change for the first Clean & Jerk and refuses to do so, the athlete is eliminated from the competition immediately upon refusal.

**7** If the 15/20 Kilo Rule is not respected by the athlete / Team Official and goes unnoticed by all TOs and the athlete takes attempts, whether successful or not, and the error is noticed only after the execution of the lifts, any or all such Clean and Jerk attempts not in compliance with the Rule will be rendered as “No lift”.

The athlete / Team Official will be compelled to nominate a weight on the barbell in accordance with the sequence and the 15/20 Kilo Rule, as long as it is within their three (3) attempts in the Clean & Jerk. No additional attempts will be granted.

**8** If the athlete / Team Official does not respect the 15/20 Kilo Rule and the non-compliance is noticed by the TOs at the completion of the competition, the athlete’s Total will not be valid and will therefore be deleted from the Final Results by order of the Jury.
